7TH INTERNATIONAL CONFERENCE ON

FUTURE OF PREVENTIVE MEDICINE AND PUBLIC HEALTH

MARCH 15-16, 2027 | VIENNA, AUSTRIA

Theme: "Transforming Health Systems through Innovation and Integration: Uniting Research, Technology, and Clinical Practices to Deliver Personalized, Affordable, and Sustainable Healthcare"

SUB THEMES

- Global Health Security and Pandemic Preparedness
- Advances in Personalized and Preventive Medicine
- Integration of Digital Health Technologies in Preventive Medicine
- Behavioral Interventions and Lifestyle Modifications
- Advancements in Vaccination and Immunization Strategies
- Workplace Health and Wellness Programs
- Patient Education and Self-Management
- Mental Health and Preventive Strategies
- Climate Change and Public Health: Impacts and Adaptation
- Addressing Health Inequities and Enhancing Access to Preventive Services
- Data-Driven Approaches to Preventive Medicine
- Innovations in Nursing Practice and Patient Care

WHY TO ATTEND?

What you take

Attending a healthcare conference offers a unique opportunity to connect with leading professionals, explore emerging trends in medicine and public health, and gain insights into groundbreaking innovations. It plays a vital role in career development by enhancing clinical knowledge, expanding skill sets, and opening new doors for collaboration and advancement.

125+ **EDUCATIONAL** SESSIONS

60+ **INTERNATIONAL** SPEAKERS

20+ **HOURS OF** NETWORKING EVENTS

12+ **INNOVATIVE** FEATURED SPEAKERS

02 **02 Day** Conference

WHO SHOULD ATTEND?

- Physicians
- Nurses
- Surgeons
- Allied Health Professionals
- Pharmacists
- Dentists
- Hospital and clinic administrators
- Biomedical researchers
- Community medicine specialists
- Nutritionists and dietitians
- Laboratory scientists
- Epidemiologists
- Public health officers
- Health education specialists
- Continuing medical education (CME) providers
- Environmental and occupational health professionals
- Pharmaceutical and Biotechnology Professionals
- Medical Device and Technology Developers
- Insurance and Healthcare Finance Professionals
- Health IT Professionals
- Government and Policy Makers
- Medical Students and Trainees
- Investors and Venture Capitalists
- Patient Advocacy Groups and Non-profit Organizations
- Mental health professionals
- Infectious disease specialists

Welcome Message

Faisal M. Rahman, Ph.D.
Professor & Founding Dean CEO/President
The Graham School of Management APAC Partners LLC
Saint Xavier University, Chicago, IL 60655, USA

Dear Colleagues,

It is my distinct pleasure and privilege to invite you to participate and contribute to the **7th International Conference on the Future of Preventive Medicine and Public Health – Future of PMPH 2027** - scheduled to be held in **Vienna, Austria, March 15-16, 2027**.

Future of PMPH 2027 offers a unique forum for academicians, practitioners, thought leaders and policy makers to come together to share their innovative research and the challenges to take the solutions to the path of successful implementation. Future of PMPH attracts participants from all corners of the globe working under different market systems and in countries at various stages of economic development.

The conference is important not only from the point of view of excellent presentations but also for the opportunities to engage fellow attendees in meaningful conversations. The contacts I made in **PMPH 2026** in Rome, Italy, will lead to collaborative research, invitations to visit fellow presenters' countries and ongoing personal friendships.

The organizers are extremely helpful; the costs are affordable and the opportunities to contribute to preventive medicine and public health are immeasurable. I look forward to seeing you in Vienna.

Best regards
Faisal M. Rahman, Ph.D.,
Professor & Founding Dean CEO/President
The Graham School of Management APAC Partners LLC
Saint Xavier University, Chicago, IL 60655, USA

Welcome Message

Carlos Rivas Echeverría ***MD, PhD, FACP***

Professor of General Practitioner and Sleep Medicine Consultant
Clinical Director of SLEEPCARE Clinics and DESPIERTA Ltd., UK

Dear Colleagues,

It was a pleasure to participate in the **Future of Preventive Medicine and Public Health (PMPH) 2026** conference in **Rome**. The event was exceptionally well organized, intellectually stimulating and brought together a diverse community committed to advancing the future of healthcare.

As we face growing global challenges—from chronic disease and ageing populations to technological disruption and health inequalities—the role of preventive medicine has never been more critical.

I warmly encourage you to join us at the **7th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2027)** held during **March 15-16, 2027** in **Vienna, Austria**. This meeting offers an excellent opportunity to exchange ideas, build meaningful collaborations, and help shape the future of healthcare.

I look forward to seeing many of you there.

Best Regards,
Carlos Rivas Echeverría, MD, PhD, FACP
Professor of General Practitioner and Sleep Medicine Consultant
Clinical Director of SLEEPCARE Clinics and DESPIERTA Ltd., UK

Welcome Message

António Rui LEAL, M.D. PhD
President of SANITUS Foundation
Invited Professor of ICBAS-UP, Porto, Portugal

Dear Colleagues,

It is my great honor on behalf of the organizing committee (PAM) to strongly invite you to the upcoming "7th International Conference on the **Future of Preventive Medicine and Public Health (PMPH)**" which takes place **March 15–16, 2027**, in the very special and holly city of **Vienna, Austria**.

This **Future of PMPH 2027** conference will address the most important issues and some innovations in healthcare, relevant to distinguished scientists, scholars, business professionals, industries, faculty, institutions and students from around the world. This sharing of leading-edge preventative measures in healthcare and medicine is always benefit for attendees, speakers
or public.

As we progress to a new era in healthcare, propelled by remarkable new technological advances, the promise of this future is enormous. From top solutions to digital health, to wearable technologies, artificial intelligence, virtual reality/augmented reality, 3D printing, robotics, and nanotechnology, innovations are reshaping healthcare systems at any unprecedented pace.

But the challenges are also enormous from special needs of poor countries, pandemics, war, domestic violence, lack of education, health politics, disasters, climate changes, and much more....

Together, let us endeavor to address these future challenges that lie ahead and work towards the development of novel solutions that will benefit humanity.

A MAJOR CONCERN that we special wish to promote in Vienna is the importance of INTERNATIONAL NETWORKING for all speakers and public involved – be it doctors, students, researchers, or industry professionals. Therefore, our conferences will serve as a vital platform for this purpose, facilitating collaborations between all participants. Networking enables the exchange of ideas, best practices, and experiences, leading to innovative solutions and advancements in preventive medicine and public health. Throughout the two days of this innovative conference, we aim to really promote this purpose in healthcare and medicine.

I would encourage you to consider this opportunity to JOIN US and learn from the distinguished speakers participating in the Future of PMPH 2027 conference in VIENNA!

Sincerely yours
António Rui LEAL, M.D. PhD
President of SANITUS Foundation
Invited Professor of ICBAS-UP
Porto, PORTUGAL

Welcome Message

Marc Ant

Professor of Organizational Behavior, Gr. D. Luxembourg
Competence Centers for the Luxembourg Crafts Sector, Luxembourg

Dear Colleagues,

On behalf of the organizing committee, it is a pleasure to invite you to the **7th International Conference on the Future of Preventive Medicine and Public Health (PMPH)**, taking place on **March 15–16, 2027**, in **Vienna, Austria**.

Again, the PMPH conference will bring together leading scientists, researchers, healthcare professionals, industry experts, and students from across the globe to explore key developments and pressing questions in preventive medicine and public health. It provides a platform to exchange knowledge, present research, and discuss practical solutions that shape the future of healthcare systems.

Advances in technology are transforming healthcare at a rapid pace. Digital health platforms, wearable devices, artificial intelligence, extended reality (VR/AR), robotics, and 3D printing are opening new possibilities for early detection, personalized treatment, and more efficient care delivery. Innovations such as remote and robot-assisted procedures are expanding access to specialized care, while nanotechnology is enabling highly targeted diagnostics and therapies at the molecular level.

At the same time, the global healthcare sector faces increasingly complex challenges. Persistent inequalities in access to care, especially in low-resource regions, remain a critical issue. Health systems still continue to recover from recent pandemics while preparing for future ones. Additional pressures arise from ageing populations, the rise of chronic diseases, mental health burdens, climate change, geopolitical conflicts, forced migration, and strained healthcare workforces. Mounting financial constraints, including rising costs of care, limited public funding, and uneven resource allocation, further challenge the sustainability of healthcare systems worldwide. Misinformation, data privacy concerns, and uneven digital infrastructure further complicate the effective implementation of new technologies.

Addressing these interconnected challenges requires collaboration across disciplines and borders. **Future of PMPH 2027**, thus, aims to foster dialogue and inspire innovative, practical solutions that can be applied globally.

A central focus of the conference is international networking. Bringing together clinicians, researchers, students, and industry leaders, the event will create opportunities to build partnerships, exchange ideas, and share best practices. Such collaboration is essential for driving progress in preventive medicine and public health.
We warmly encourage you to join us in Vienna for this engaging and forward-looking event and to benefit from the insights of distinguished speakers shaping the future of global healthcare.

Best regards
Prof. Marc Ant
Professor of Organizational Behavior, Gr. D. Luxembourg
Competence Centers for the Luxembourg Crafts Sector, Luxembourg

PRESENTATION FORUM

01

KEYNOTE FORUM / MINI-PLENARY SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

02

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

03

STUDENT FORUM / POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

YOUNG INVESTIGATORS FORUM

04

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

05

EDUCATIONAL WORKSHOPS/RESEARCH WORKSHOPS/ CORPORATE WORKSHOPS/MINI- SYMPOSIA

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

HIGHLIGHTS OF THE DAY SESSIONS

"Highlights of the Day Sessions" is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

06

07

MEET THE PROFESSOR @ NETWORKING SESSIONS

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

EDUCATIONAL SESSIONS/ TRAINING PROGRAMS

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

FUTURE OF PMPH 2026

https://www.futurehealthcareconferences.com/

Good morning, Elliana. I want to thank you for such a wonderful opportunity to participate in this awesome Future of PMPH 2026 conference held during March 23-24, 2026 Rome, Italy. It was truly an honor to present and to listen to all the other wonderful speakers thank you so much for asking me and I would love to be considered for next year if that is a possibility I am working on actual research based on what I presented last week so hopefully by next year, I would actually have quantitative data regarding behavioral addictions. Again I want to thank you I know I have to do a blurb and we'll get that done this week and I hope you will consider me for future presentations.

MARY MCCLOSKEY

CELTIC COUNSELING INC., USA

Greetings!

I recently had the pleasure and privilege of being a Distinguished Speaker (entitled: Data and AI Practices Within Healthcare) at the 6th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2026) held during March 23-24, 2026 Rome, Italy. The conference drew together academia, business, and government in a cross-disciplinary approach. The conference was well organised, combining virtual and physical engagements across different areas. The sessions tracked to schedule with respect for speakers, participants, and stakeholders. I was kept informed throughout the process with timely engagement. My thanks to all involved, including Peers Alley Media, for the effort and hard work that went into conference.

Thank you

KEITH SHERRINGHAM

ADT-PARTNERS, AUSTRALIA

Greetings!

The quality of talks at Future of PMPH 2026 was very interesting. It covered various fields and countries. It contribute to my professional development.

Peers Alley Media, Canada did a good job, it was very helpful and the meeting was well organized.

ICHI KANAYA

NAGASAKI UNIVERSITY, JAPAN

Greetings!

I hope you are doing well.

I would like to sincerely thank you for the opportunity to participate as a speaker at the Future of PMPH 2026, held on March 23-24, 2026 Rome, Italy. It was truly an incredible experience to be part of such a high-level event, bringing together innovation, research, and clinical perspectives in such a meaningful way.

I am very grateful for the invitation and for the excellent organization of the conference. It was a privilege to contribute to the discussions and to share my work on AI hallucination risks and mitigation strategies with such an engaged and qualified audience.

Thank you once again for the opportunity. I look forward to staying in touch and hopefully collaborating again in the future.

LUCAS DOMINGUES DOS SANTOS

UNIVERSITY OF SÃO PAULO (USP), BRAZIL

Thank you so much for reaching out. It was truly a pleasure to participate in the 6th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2026) held on March 23-24, 2026 Rome, Italy.

I was impressed with the high quality of the event, and I am happy to provide my feedback based on my experience.

1. The quality of talks at Future of PMPH 2026

The quality of the presentations was exceptionally high. The speakers delivered insightful and cutting-edge research that covered a broad spectrum of topics within preventive medicine and public health. The sessions were not only informative but also fostered engaging discussions among attendees, reflecting the high caliber of the content presented.

2. How far could it contribute to your professional development?

This conference contributed significantly to my professional development. It provided a valuable platform to learn about the latest methodologies and emerging trends in public health. Moreover, the multidisciplinary atmosphere allowed me to connect with peers and experts from different backgrounds, which has already sparked new ideas for collaboration and will undoubtedly influence my future research directions.

3. Did Peers Alley Media, Canada do a good job selecting speakers for thought-provoking sessions for this event?

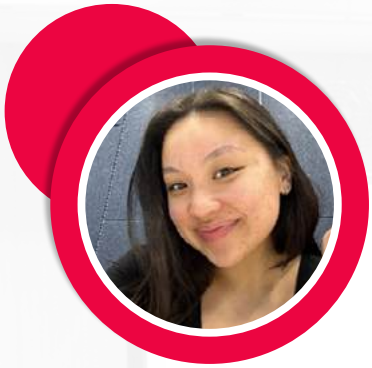

Absolutely. Peers Alley Media did an excellent job curating the speaker lineup. The selection of speakers was diverse yet cohesive, ensuring that each session was thought-provoking and relevant. It is clear that a great deal of effort went into assembling a group of distinguished professionals who could not only present their work effectively but also engage the audience in meaningful dialogue.

Thank you again to you and the entire team for your hard work in organizing such a seamless and valuable event. I look forward to participating in future conferences hosted by Peers Alley Media.

Hope to see you in Beijing soon!

RUI ZHANG

PEKING UNIVERSITY FIRST HOSPITAL, CHINA

The qualities of the talk were great at Future of PMPH 2026, held on March 23-24, 2026 in Rome, Italy. I think the 20 minute sessions allowed enough time to go in depth on the topics while staying in layman's terms so everyone from different academic backgrounds could appreciate and learn. Being an international conference, I hope it contributes to my professional development as I am a medical student just starting out in my academic career. I think the entire PMPH team did a great job organizing, this was the most well organized conferences I have presented at.

TACHELLE TING

FLINDERS UNIVERSITY, AUSTRALIA

Greetings!

I am pleased to share my experience attending the 6th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2026) held on March 23-24, 2026 in Rome, Italy.

The quality of the talks was excellent, featuring a well-balanced mix of cutting-edge research, practical insights, and forward-looking perspectives. The speakers demonstrated strong expertise in their respective fields, and the sessions were both informative and engaging.

Attending this conference significantly contributed to my professional development. It provided valuable opportunities to stay updated on emerging trends in preventive medicine and public health, exchange ideas with fellow professionals, and gain new perspectives that I can apply in my own work.

Peers Alley Media did an outstanding job in selecting speakers who delivered thought-provoking and relevant presentations. The diversity of topics and the high caliber of participants ensured meaningful discussions throughout the event.

Overall, Future of PMPH 2026 was a well-organized and impactful conference, and I would highly recommend it to professionals in the field.

JANA BRAJDIH ČENDAK

BILLEV PHARMA EAST LTD., SLOVENIA

Greetings!

I would like to thank you for the opportunity to participate at 6th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2026) held on March 23-24, 2026 in Rome, Italy.

I am happy about the organization of the conference everything was clear.

I was really happy about the overall outcome. I was also able to learn new things from the other participants.

GIOCONDA MILLOTTI

JURAJ DOBRILA UNIVERSITY OF PULA, CROATIA

Thank you for the opportunity to share my feedback on the 6th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2026), held on March 23-24, 2026 in Rome, Italy.

Overall, the conference was well-organized and offered a valuable scientific experience. I found the quality of the talks to be very good, with several presentations being particularly insightful and relevant to my field. Some sessions provided practical perspectives that I found especially helpful for my professional work.

The conference contributed positively to my professional development by enhancing my understanding of current trends and emerging topics in preventive medicine and public health. It also offered an excellent platform for knowledge exchange and reflection on best practices.

Additionally, Peers Alley Media, Canada did a commendable job in selecting speakers and organizing thought-provoking sessions that encouraged meaningful discussion and engagement.

Thank you again for your efforts in organizing this event.

AMANI ALAWI ALRASHEEDI

KING ABDULAZIZ UNIVERSITY, SAUDI ARABIA

Thank you for your kind message.

I would say: I found the presentations at Future of PMPH 2026 to be content-rich and up to date. The sessions were particularly valuable in providing diverse perspectives within the fields of preventive medicine and public health. The conference also had broad participation, including engineers, medical doctors, and researchers from different disciplines, which enriched the discussions.

The conference contributed positively to my professional development by offering insights into emerging research topics and opportunities for interdisciplinary collaboration. In this regard, it proved to be a productive and beneficial academic event.

I also observed that Peers Alley Media established a well-balanced and high-quality program through its selection of speakers. Overall, the sessions were engaging and thought-provoking.

Thank you to everyone involved in organizing this successful event.

TAYFUN KURT

INDEPENDENT RESEARCHER, TURKEY

It was a very effective conference in terms of the wide range of presentations made by the participants from diverse fields on the theme of the event. I found my association as a distinguished invited speaker, along with a nicely coordinated range of participants. This has been a very useful addition to my work and knowledge, and I have gained a lot from the advances made in various fields, as were dealt with by the speakers. I thank and congratulate the Peers Alley Media, Canada, for the wonderful occasion and for the nicely coordinated conference, Future of PMPH 2026. Thanks.

DHARMESWAR DAS

ASSAM DOWN TOWN UNIVERSITY, INDIA

Greetings!

The quality of talks at Future of PMPH 2026 (held during March 23-24, 2026) was excellent. The sessions were insightful, well-structured, and delivered by knowledgeable speakers who brought both depth and practical relevance to their topics. The diversity of perspectives kept the discussions engaging and meaningful throughout the event. Moreover, it contributed significantly to my professional development. The conference provided valuable exposure to current trends, innovative ideas, and real-world applications that can be directly applied in a professional setting. Of course, Peers Alley Media did a great job selecting speakers. The lineup was thoughtfully curated, featuring experts who led thought-provoking and impactful sessions. Their ability to bring together such high-quality contributors clearly enhanced the overall value of the event.

ANA MLADENOVIC MARKOVIC

UNIVERSITY CLINICAL CENTRE OF SERBIA, SERBIA

Greetings!

I would like to thank you for the opportunity to participate in Future of PMPH 2026 (held during March 23-24, 2026) and for the privilege to present my paper alongside other distinguished speakers. It was really great.

Thank you also for the excellent organization and coordination by the moderator.

JAMES ODIA

UNIVERSITY OF BENIN, NIGERIA

Warm greetings!

Personally, I loved the quality of all the talks at Future of PMPH 2026 (held during March 23-24, 2026).

It was the first chance I ever had at an oral presentation. I aspire to do more of these in the future and was grateful for this chance.

I loved all speakers in day 2 I saw but was not therefore day 1. However I have looked at most abstracts.

Thanks again for having me!

JAY ASHESH JANI

EMORY SCHOOL OF MEDICINE, USA

Warm Greetings!!

1. The quality of talks at Future of PMPH 2026

The quality of the talks at Future of PMPH 2026 (held during March 23-24, 2026) was very good. The conference brought together knowledgeable speakers, researchers, and professors from across the world, and the sessions reflected a strong mix of academic depth, practical relevance, and current healthcare challenges. I found the discussions thoughtful, engaging, and valuable.

2. How far could it contribute to your professional development?

The conference contributed meaningfully to my professional development. Presenting my paper on HPC-AI by Design in Healthcare gave me an opportunity to share my work with an international audience, receive broader perspective, and learn from experts working across healthcare, research, and innovation. The sessions also helped me better understand emerging ideas, global trends, and interdisciplinary approaches that are relevant to my ongoing work.

3. Did Peers Alley Media, Canada do a good job selecting speakers for thought-provoking sessions for this event?

Yes, Peers Alley Media, Canada did a good job selecting speakers for thought-provoking sessions. The event included diverse participants and presenters from different backgrounds and regions, which made the discussions richer and more meaningful. The speaker lineup supported a constructive exchange of ideas and helped create a strong learning environment for attendees.

HARIKRISHNAN MUTHUKRISHNAN
BCBS-FLORIDA, USA

Warm Greetings!!

1. The quality of talks at Future of PMPH 2026 (held during March 23-24, 2026) is appreciable

2. The experience is enlightening and it would further help to exchange the ideas with the greater world.

3. Peers Alley Media has one a good job for selecting the speaker for this event.

SAMITA MANNA
UNIVERSITY OF KALYANI, INDIA

Thank you very much, and congratulations on the successful and smooth conduct of the conference.

Thank you for the opportunity to share my experience of participating virtually in the 6th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2026).

Overall, my experience was very positive and enriching. The quality of the talks was commendable, with a good balance between conceptual insights and applied perspectives.

The sessions reflected current debates and emerging priorities within preventive medicine and public health, making them both relevant and intellectually engaging.

From a professional standpoint, the conference contributed meaningfully to my development. It offered exposure to interdisciplinary approaches and diverse research contexts, which are particularly valuable for broadening analytical frameworks and identifying potential areas for future collaboration and inquiry.

I would also like to acknowledge the efforts of Peers Alley Media, Canada, in curating a thoughtful lineup of speakers. The selection ensured a range of perspectives and facilitated discussions that were both stimulating and forward-looking.

Thank you once again for organizing such a well-coordinated and insightful event. I look forward to participating in future editions.

ANKUR SHUKLA

AMITY UNIVERSITY RAJASTHAN, INDIA

Warm greetings!

I had the opportunity to participate as a speaker at the Future of PMPH 2026 conference (held during March 23-24, 2026), and I am grateful for the experience.

As for the event, it went very smoothly. I joined the meet at the said time was able to give my speech without any issues. The organizers on the call were very kind and helpful too.

Overall it was a good experience.

GOURAB ROY

INDIAN INSTITUTE OF TECHNOLOGY (ISM) DHANBAD, INDIA

Warm greetings!

Many thanks for your efforts in organizing Future of PMPH 2026 and wishing you success in future organizations.

SEMA SAFIR SUMER

THE WORLD BANK, TURKEY

Warm greetings!!

I had a wonderful time at Future of PMPH 2026 (held during March 23-24, 2026). I thought the talks were high-quality and contributed to my professional development.

I would like to offer one suggestion. Many talks had very valuable content, but the speakers struggled to keep within the timeframe, and the talks were truncated. It would be helpful for speakers if there was a very visible timer in the back of the room that they can see during their presentation. It would help speakers with time management during their presentations and prioritize content.

Thank you

ADITYA MOHANTY

BETH ISRAEL DEACONESS MEDICAL CENTER, USA

It was a matter of great pleasure and privilege for me to participate in the programme of Future of PMPH 2026.

The event was very well conducted by you in a very professional manner. My feedback on the points brought out by you is as follows:-

1. The quality of talks at Future of PMPH 2026 : Excellent

2. How far could it contribute to your professional development?? : Presenting the Key Note address at the above conference further enhanced my confidence in this topic and motivated me to work with more dedication on this subject which is so important in todays context.

3. Did Peers Alley Media, Canada do a good job selecting speakers for thought-provoking sessions for this event?? Yes, they did a good job. Commendable.

I would personally like to participate in your professional activities and events in future too.

SHRI PAL

HIMUDA INDUSTRIAL AREA PHASE IV, INDIA

Greetings!!!

As promised, please find my responses below.

Thank you once again for the opportunity.

1. The quality of talks at Future of PMPH 2026

This was my first time attending the 6th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2026), and I greatly enjoyed the experience.

The conference was well organized and intellectually enriching. Coming from the continent of Africa and working within the field of Social Work, I found the interdisciplinary nature of the sessions valuable. Areas of medicine discussed, such as age reversing and longevity related interventions, reflected contemporary discourses that are more prominently emerging within the Global North. Exposure to these topics broadened my understanding of current debates in preventive medicine.

I also noted that the area of Indigenous African knowledge systems in Social Work Practice that I presented represents a contemporary discourse within the Global South. Although this area was unfamiliar to many participants, the participants demonstrated genuine interest and curiosity, which further highlighted important contrasts and reinforced the value of cross continental and intercultural knowledge exchange. The speakers were welcoming and enthusiastic, and as a result, the presentation on Indigenous African knowledge systems provoked meaningful and engaging discussions. Overall, cross continental and interdisciplinary knowledge exchange was my key takeaway from the conference.

2. How far could it contribute to your professional development??

Engaging with scholars and practitioners from medicine, public health, and the social sciences deepened my appreciation of interdisciplinary collaboration, particularly in engaging with the complexities of psychosocial and health related knowledge systems. This experience reaffirmed the value of integrating diverse knowledge systems and professional perspectives to promote a holistic, context-based and community centered preventive interventions.

3. Did Peers Alley Media, Canada do a good job selecting speakers for thought-provoking sessions for this event??

Yes, Peers Alley Media, Canada did an excellent job selecting speakers for thought provoking and engaging sessions. The diversity of expertise and perspectives encouraged critical reflection, interdisciplinary dialogue, and meaningful knowledge exchange throughout the conference. I look forward to participating in the Future of PMPH 2027 conference and continuing this valuable exchange of knowledge. I also sincerely appreciate Peers Alley Media, Canada for their efficient and professional service. Receiving the conference photographs within a short period after the event was greatly appreciated.

NOKUKHANYA ZONDI

UNIVERSITY OF KWAZULU-NATAL, SOUTH AFRICA

Dear Future of PHPM Organizing Committee,

Let me first warmly thank you for your invitation to the 2026 Conference. This opportunity made me aware of the existence of an organization I didn't know before, whose scope goes beyond my personal scientific area of interest, but at the same time, encompasses it.

I qualify as a psychologist investigating linguistic and cognitive profiles in typical and atypical populations from both a developmental and educational perspective. Therefore, the very fact of being selected as a distinguished speaker within such a vast group of international professionals of medicine, chemistry, dietology, environmentalism, and the like, has favorably surprised me as a sign of a far-reaching view of medical problems. Actually, I have been contacted, since the first email, based on a chapter of a freshly published book, "The metalinguistic mind. Typically and atypically-developing children" (Springer Nature, 2026), namely, "The development of metalinguistic awareness in atypical populations: What can we learn from their linguistic profiles?". This makes me think that the selection of the speakers did succeed in gathering thought-provoking contributions from diverse areas, though potentially interconnected.

Concerning the quality of the talks, although I could attend only the first 14 contributions on Monday, 23, I found them well presented, full of eloquent data, tables, and figures on such relevant topics as environmentalism, dietology, predictive power of diagnostic tools, and related therapy means, use of digital tools for medicine administration, and the like. Not being an expert in those fields, I can only express a very general impression, but the very fact that I could grasp the essence of the contents seems to me a sign of clarity and relevance.

As for the contribution of my participation in the conference to my professional development, I cannot say much for the moment, but as a developmental and educational psycholinguist, I saw some potentialities in analyzing how other professionals communicate their scientific discourse, and how this communication could be optimized, both in written and oral form. For instance, there was a wide variety of English pronunciation styles among the speakers, a phenomenon that obliges the listeners to considerable effort in adjusting the ear to diverse intonation patterns, syllable stress, and phonetic variation. This is to me an interesting area of study.

In the whole, then, the participation in the conference has been a very stimulating experience, for which I thank the organizers once more.

MARIA ANTONIETTA PINTO

UNIVERSITY OF ROME "LA SAPIENZA", ITALY

NETWORKING... CONFERENCING... FOSTERING

Attending a Conference isn't all about Learning and Networking

DISCOVERING

A right choice of conference destination is an important aspect of any international conference and keeping that in consideration, ***Future of PMPH 2027*** is scheduled in the Beautiful city "Vienna'.

VIENNA

Vienna is the capital city of Austria and one of Europe's most culturally rich and historically significant cities. Situated along the Danube River, it was once the center of the powerful Habsburg Empire and has long been known as the "City of Music" for being home to legendary composers like Wolfgang Amadeus Mozart and Ludwig van Beethoven. The city is famous for its stunning architecture, including Schönbrunn Palace and St. Stephen's Cathedral, as well as its rich traditions of classical music, art, and café culture. Today, Vienna is widely regarded as one of the most livable cities in the world, offering a perfect blend of historical charm and modern lifestyle.

Vienna is not only a cultural capital but also a modern hub of politics, education, and innovation in Austria. It hosts major international organizations like the United Nations Office at Vienna, making it an important center for global diplomacy. The city beautifully blends imperial history with contemporary life—grand palaces such as Hofburg Palace reflect its royal past, while its efficient public transport, clean streets, and strong infrastructure showcase its modern excellence.

Vienna is also deeply connected to art and psychology, being home to influential figures like Sigmund Freud, the founder of psychoanalysis. Its museums, galleries, and concert halls—especially the Vienna State Opera—attract millions of visitors each year.
