5TH WORLD CONGRESS ON

INFECTIOUS DISEASES AND ANTIMICROBIAL RESISTANCE

Theme: Infectious Diseases and Antimicrobial Resistance in the 21st Century: Emerging Threats, Integrated Responses, and Future Directions

2027

JUNE 28-29

PARIS, FRANCE

SUB THEMES

- Emerging and re-emerging infectious diseases
- Diagnostics and surveillance technologies
- Host–pathogen interactions
- Vaccines and novel therapeutics
- One Health approach and climate change impact Global burden and epidemiology of AMR
- Mechanisms of antimicrobial resistance
- Antimicrobial stewardship and infection control
- Innovative therapeutic strategies (phages, peptides, CRISPR, etc.)
- Policy, public health initiatives, and awareness
- Alternatives and adjunct approaches (probiotics, vaccines, natural products)

WHY TO ATTEND?

What you take

Attending Infectious Diseases & Antimicrobial Resistance conference provides a valuable platform to engage with global experts, explore the latest advances in infectious disease management, and address one of the most pressing challenges in modern medicine—drug resistance. It offers opportunities to deepen understanding of emerging pathogens, innovative diagnostics, and novel therapeutic strategies while gaining practical insights into antimicrobial stewardship. Beyond knowledge, it fosters professional growth by enhancing clinical expertise, expanding research perspectives, and creating collaborations that drive impactful solutions for global health.

02
02 Day Conference

12+
INNOVATIVE FEATURED SPEAKERS

20+
HOURS OF NETWORKING EVENTS

60+
INTERNATIONAL SPEAKERS

125+
EDUCATIONAL SESSIONS

WHO SHOULD ATTEND?

- Physicians, Internists
- Clinicians, Infectious Disease Specialists
- Microbiologists, Virologists
- Bacteriologists, Parasitologist
- Pathologists, Epidemiologists
- Immunologists, Pharmacologists
- Antimicrobial Stewardship Experts, Infection Control Officers
- Healthcare Practitioners, Nurses
- Allied Health Professionals, Physician Assistants
- Pharmaceutical Researchers, Bio-Technologists
- Drug Discovery Scientists, Clinical Laboratory Scientists
- Laboratory Technicians, Diagnostic Companies
- Hospitals, Medical Colleges
- Research Institutes, Pharmaceutical Industries
- Biotechnology Companies, Drug Manufacturing Companies
- Public Health Professionals, Faculty and Scientists

Welcome Message

Anne. Rosken
ANED-HSG-PCU, Germany

University of St.Gallen

Dear Colleagues,

It is our great pleasure to welcome you to the 5th World Congress on Infectious Diseases and Antimicrobial Resistance (IDAMR 2027), taking place on June 28–29, 2027, in Paris, France. At a time when infectious diseases continue to challenge global health systems and antimicrobial resistance remains one of the most urgent threats to modern medicine, this congress offers an important international platform for exchange, collaboration, and action.

We are pleased to bring together leading clinicians, researchers, public health experts, pharmaceutical innovators, regulators, policymakers, and all those committed to advancing the fight against infectious diseases and antimicrobial resistance. The program will highlight cutting-edge research, innovative diagnostics, AI-driven surveillance, precision therapies, antimicrobial stewardship, and practical strategies for translating science into impact.

We warmly invite you to join us as a speaker or as a participant. Your presence, insights, and expertise will help shape meaningful discussions and foster new partnerships that can drive progress on a global scale. Together, let us make IDAMR 2027 a congress of knowledge, inspiration, and concrete solutions for a healthier future.

Anne. Rosken
ANED-HSG-PCU, Germany

Welcome Message

Florence D. Hudson

Co-Chair, IDAMR 2026 and IDAMR 2027 and the Organizing Committee
Executive Director, Northeast Big Data Innovation Hub, Columbia University

COLUMBIA UNIVERSITY

Dear Esteemed Colleagues,

It is our distinct honor to invite you to participate in the 5th World Congress on Infectious Diseases and Antimicrobial Resistance (IDAMR 2027), taking place on June 28-29, 2027 in Paris, France. In an era where infectious diseases continue to challenge global health systems and antimicrobial resistance (AMR) threatens modern medicine and human life, IDAMR 2027 stands as a valuable international platform for evidence-based solutions and strategic collaboration.

Your personal and team participation matters as we convene and continue to work to address the growing challenges of antimicrobial resistance, which could cause 10 million deaths annually by 2050 and cost the global economy up to USD 100 trillion without urgent action. Meanwhile, the infectious disease diagnostics market is projected to exceed USD 40 billion by 2028, with rising global investments in surveillance, vaccines, and antimicrobial stewardship driven by emerging infections and post-pandemic preparedness. The opportunity to convene and develop valuable collaborations at IDAMR 2027 directly addresses these urgent global priorities, offering a high-impact environment where science meets strategy and innovation meets implementation.

You will have the opportunity to present your cutting-edge research and recommendations and gain insights from other leading researchers, scientists, clinicians, public health experts, pharmaceutical innovators, regulators, and policymakers to foster impactful global collaborations. Together we can develop strategic objectives to address the challenges and stem the tide of infectious diseases and rising antimicrobial resistance globally. The sharing of local and regional insights which we can leverage more broadly will enable the best minds and solutions to permeate our world, and benefit our societies. Leaders in next generation diagnostics, AI-driven surveillance, and precision antimicrobial therapies will be with us to share and connect.

We warmly welcome you to join us in Paris in June 2027 and contribute to advancing transformative solutions in infectious diseases and antimicrobial resistance. We hope to see you there.

With sincere regards,
Florence D. Hudson
Co-Chair, IDAMR 2026 and IDAMR 2027 and the Organizing Committee
Executive Director, Northeast Big Data Innovation Hub, Columbia University

PRESENTATION FORUM

01

KEYNOTE FORUM / MINI-PLENARY SESSIONS

Presentations under Keynote Forum or Mini-Plenary Sessions includes abstracts with remarkable research value selected by the program committee. These significant speeches are delivered by globally recognized honorable speakers and it is open to all registrants.

DISTINGUISHED SPEAKERS FORUM (ORAL ABSTRACT SESSIONS)

In this forum, speakers and experts of the research field gets an opportunity to showcase their noble research work that involves comprehensive research findings. These formal oral presentations include a wide range of talks covering basic research to advanced research findings in accordance to the theme and scientific sessions of the conference.

02

03

STUDENT FORUM / POSTER SESSION

This session is particularly introduced to encourage more number of student participation at international conferences, however it is not restricted only to students since it is also available for the participants with language barrier. There are specific guidelines to be followed to prepare the poster. Poster topic should be selected only from relevant scientific sessions with in-depth technical details.

YOUNG INVESTIGATORS FORUM

An exclusive opportunity for students and young investigators to present their research work through a formal oral presentation. Young Investigators Forum provides a global platform for young researchers and scholars to showcase their valuable contribution to the scientific world and to get acknowledged by the global scientific community of experts. It is an excellent opportunity to recognize young scientific assets with promising research ideas. These oral presentations are of shorter time duration with 10-15 minutes of informative and precise presentations in relevant scientific sessions.

04

05

EDUCATIONAL WORKSHOPS/RESEARCH WORKSHOPS/ CORPORATE WORKSHOPS/MINI- SYMPOSIA

With an aim of transferring knowledge among the participants, workshops are introduced as a part of international conferences. These interactive and occasionally practical sessions gives an opportunity for participants to engage in detail discussion. Workshops are mostly scheduled for 60 to 90-minutes. It may range from learning about a specific topic relevant to international education, products and research which sometimes involves practical demonstration. It helps in enhancing skills, knowledge and understanding of the research field in depth through interactive discussions.

HIGHLIGHTS OF THE DAY SESSIONS

"Highlights of the Day Sessions" is introduced to discuss and focus a ray upon previous day ORAL ABSTRACT presentations by experts to summarise the key findings. It helps in getting better insights into the various dimensions of the topic.

06

07

MEET THE PROFESSOR @ NETWORKING SESSIONS

This session involves open discussion between the experts and session attendees, it gives enough time for getting answers to specific questions and doubts. It is an opportunity for attendees to increase their professional networking, sometimes also leads to an excellent collaboration opportunity.

EDUCATIONAL SESSIONS/ TRAINING PROGRAMS

Educational Sessions or training programs are specifically designed for a better understanding of the latest findings and technologies. These are generally 45-minute sessions that gives an exposure to the multidisciplinary field, that provides in-depth learning experiences and address educational needs.

CONCURRENT
EDUCATIONAL SESSIONS

MONDAY - JUNE 28, 2027

- Infectious Diseases and Global Health
- Viral Infections

- Bacterial Infections
- Fungal Infections+

GROUP PHOTO | COFFEE BREAK

- Vector-borne Diseases
- Virology and HIV/AIDS

- Immunology and Clinical Microbiology
- Neurological and CNS Infections

LUNCH BREAK

- Healthcare-Associated Infections
- Ophthalmological Infectious Diseases

- Vaccines and Immunizations
- Tropical Diseases and Parasitic Diseases

GROUP PHOTO | COFFEE BREAK

- Sexually Transmitted Diseases and STIs
- Lower Respiratory and Pediatric IDs

- Clinical Trials and Case Studies
- Influencing Factors of IDs

CONCURRENT
EDUCATIONAL SESSIONS

TUESDAY - JUNE 29, 2027

- Advanced Treatments and Technologies
- Prevention and Control

- Public Health and Epidemiology
- Oral and Maxillofacial Infections

GROUP PHOTO | COFFEE BREAK

- Genomics and Infectious disease
- Special Session on COVID-19

- Bacterial Infections
- Fungal Infections

LUNCH BREAK

- Vector-borne Diseases
- Virology and HIV/AIDS

- Infectious Diseases and Global Health
- Viral Infections

GROUP PHOTO | COFFEE BREAK

- Pathophysiology and Diagnosis
- Clinical Trials and Case Studies

DISCOVERING

A right choice of conference destination is an important aspect of any international conference and keeping that in consideration, IDAMR 2027 is scheduled in the Beautiful city 'Paris'.

PARIS

Paris is one of the world's most iconic and captivating cities, renowned for its rich history, cultural heritage, elegant architecture, and vibrant lifestyle. Located in the heart of the Île-de-France region in northern France, the city is beautifully crossed by the Seine River and surrounded by picturesque boulevards, gardens, and historic landmarks. Often referred to as the "City of Light" and the "City of Love," Paris continues to attract millions of visitors each year with its timeless charm and global influence.

As one of the most visited destinations in the world, Paris welcomes travelers with world-famous attractions such as the Eiffel Tower, Louvre Museum, Notre-Dame Cathedral, Champs-Élysées, and Montmartre. The city's cafés, art galleries, fashion houses, and lively cultural atmosphere make it a center for creativity, innovation, and inspiration.

Paris is also recognized for its multicultural environment, bringing together people from diverse backgrounds and making it one of Europe's leading international cities. The city offers exceptional cuisine, ranging from traditional French delicacies to modern fine dining experiences, reflecting France's worldwide reputation for culinary excellence.

In addition to its cultural significance, Paris is an important global hub for business, education, science, and technology. The city plays a major role in international commerce and sustainable innovation while maintaining its commitment to environmental preservation through its parks, green spaces, and urban sustainability initiatives.
